Subject: Recommendation Letter

Dear Madam, dear Sir,

I am writing to recommend Mr. Rohde in his future Job search.

I have had the chance to work with Mr. Rohde for 6 months on the Cloud Project I have technically lead for 3 years, on the topic of Precision Agriculture based on data mining and remote sensing. Mr. Rohde was in charge of research and development of new algorithms to detect anomalous crop profiles.

Mr. Rohde was fully committed, with professionalism to analyse and propose innovative algorithms on a new topic for him. Mr. Rohde was able to handle complex projects based on very innovative technologies (cloud, very large data analysis) with a high level of computer development skills and a very appreciated autonomy.

Curious, committed, with serious analytical and anticipation skills, Mr. Rohde is a natural scientist and an excellent colleague that likes challenges and new projects. With a strong team spirit, Mr. Rohde has always been able to work in autonomy but also to efficiently participate in the construction of a new implementation.

After six months, we could implement his excellent work in a production service which leveled-up our actual service.

For all these reasons, I strongly recommend Mr. Rohde's candidacy to any future work on scientific subjects, cloud computing and data science. It has been a real pleasure to work with him.

Yours faithfully,

Yoann Moreau
